

UNITED STATES DISTRICT COURT

for the
Southern District of Ohio

In the Matter of the Search of
(Briefly describe the property to be searched
or identify the person by name and address)
The Cellular Devices More Fully Described in
Attachment A

Case No. 1:21-mj-957

APPLICATION FOR A WARRANT BY TELEPHONE OR OTHER RELIABLE ELECTRONIC MEANS

I, a federal law enforcement officer or an attorney for the government, request a search warrant and state under penalty of perjury that I have reason to believe that on the following person or property (identify the person or describe the property to be searched and give its location):

See Attachment A.

located in the Southern District of Ohio, there is now concealed (identify the person or describe the property to be seized):

See Attachment B.

The basis for the search under Fed. R. Crim. P. 41(c) is (check one or more):

- ☒ evidence of a crime;
- ☒ contraband, fruits of crime, or other items illegally possessed;
- ☒ property designed for use, intended for use, or used in committing a crime;
- ☐ a person to be arrested or a person who is unlawfully restrained.

The search is related to a violation of:

| Code Section | Offense Description |
|---------------------|---|
| 21 U.S.C. 846 | Narcotics Conspiracy |
| 21 U.S.C. 841(a)(1) | Distribution of a Controlled Substance |
| | Possession with Intent to Distribute a Controlled Substance |

The application is based on these facts:

See attached affidavit.

- ☒ Continued on the attached sheet.
- ☐ Delayed notice of _____ days (give exact ending date if more than 30 days: _____) is requested under 18 U.S.C. § 3103a, the basis of which is set forth on the attached sheet.

Anthony C. Ott

Applicant's signature

Anthony C. Ott, Special Agent F.B.I.

Printed name and title

Attested to by the applicant in accordance with the requirements of Fed. R. Crim. P. 4.1 by

via FaceTime video (specify reliable electronic means).

Date: Dec 15, 2021

City and state: Cincinnati, Ohio

Karen L. Litkovitz

United States Magistrate Judge

ATTACHMENT A

Property to be Searched

The property to be searched is listed below. The devices are currently located in a secure evidence storage at FBI Cincinnati, 2012 Ronald Reagan Drive, Cincinnati, Ohio, 45236.

- a. an Apple iPhone SE, model A2275, S/N F17F73D3PLJN646D; and
- b. an Apple iPhone, black in color, no further visible identifiers.

ATTACHMENT B

1. All records and information on the Devices described in Attachment A that relate to violations of 21 U.S.C. §§ 841 and 846 (possession with intent to distribute a controlled substance and conspiracy to commit a Title 21 offense); by Jerome NEWTON members of the ROBERSON DTO and others yet unknown occurring in or after 2018 through the present, including but not limited to communications, photographs, videos, cell phone applications, records, and other data about the following:

- a. Any and all controlled substances (as defined under Title 21, United States Code, § 812) possessed by Jerome NEWTON, members of the ROBERSON DTO, and others yet unknown;
- b. lists of customers and related identifying information;
- c. types, amounts, and prices of drugs trafficked as well as dates, places, and amounts of specific transactions;
- d. any information related to sources of drugs (including names, addresses, phone numbers, or any other identifying information);
- e. all bank records, checks, credit card bills, account information, and other financial records;
- f. Evidence of user attribution showing who used or owned the Devices at the time the things described in this warrant were created, edited, or deleted, such as logs, phonebooks, saved usernames and passwords, documents, and browsing history;
- g. Paraphernalia associated with the manufacture, distribution, sale, import, export, storage, conversion, preparation for sale and use of any controlled

substances, including scales, measuring devices, bottles, balloons, baggies, plastic wrap, plastic envelopes, film canisters and cutting, conversion, and adulteration agents;

h. Records showing evidence of importing, smuggling, and distributing drugs, including books, ledgers and diaries, address books and lists, buyer and seller lists, notebooks, IOU's, spreadsheets, rolodexes, telephone bills, telephone answering pads, bank and financial records, wire transfer records, express consignment mailing labels (including Federal Express, DHL, U.S. Postal Express Mail, UPS, and other similar labels), evidence of offsite storage (such as storage locker receipts and safety deposit box rental records and keys), documents showing domestic or international travel (such as airline tickets, itineraries, passports, and the like), and receipts showing imports or exports (such as shipper's export declarations, bills of lading, invoices, tax identification number paperwork, and other similar documents);

i. Currency (whether U.S. or foreign) and financial instruments, including travelers checks, bonds, stock certificates, cashier's checks, certificates of deposit, and money orders, derived from the sale of controlled substances in violation of Title 21, United States Code, § 841 and money wrappers, rubber bands, money containers, and money counting machines;

j. Precious metals, jewelry, art, or other high-value items that could be obtained with the proceeds of the sales of controlled substances;

- k. Any and all records, documents and deeds reflecting the purchase or lease of real estate, vehicles, precious metals, jewelry, art, or other high-value items that could be obtained with the proceeds of the sales of controlled substances;
- l. Any boxes, bags, briefcases, suitcases, containers, or other items that could be used to mail, carry, import, export, smuggle, or transport marijuana or any other controlled substances;
- m. Photographs (both paper and digital form) and video and audio recordings which document an association with other co-conspirators and/or display drug trafficking methods, narcotics, firearms, or money and proceeds from narcotics transactions;
- n. All records, documents, and materials showing control, possession, custody, dominion or other indicia of occupancy over physical premises, including but not limited to: personal mail, checkbooks, personal identification, personal effects, notes, other correspondence, utility and other bills, internet service provider documents, letters, rent receipts, mortgage and loan documents, financial documents, vehicle registration information or ownership warranties and keys;
- o. Any and all electronic or communication devices including, but not limited to, cellular telephones, smart phones, portable electronic devices such as tablet computers, laptops, iPads or electronic storage media, and other electronic or communication devices which could be used to facilitate drug trafficking;
- p. Firearms and ammunition;

- q. Firearms accessories, such as ammunition, ammunition magazines, silencers, gun cases, magazines and spare parts;
- r. Firearms source records, including lists of prices, correspondence, notation logs, receipts, journals, books, telephone records, telephone bills, address books, bank statements, and other documents or devices noting the price, quantity, dates, and/or times when firearms were purchased possessed, transferred, distributed or sold;
- s. Photographs, video and audio recordings, text messages, chats, emails and other communications (and associated contact information), in electronic or other form, related to the possession, acquisition or transfer of firearms, firearms parts and accessories, or ammunition;
- t. Firearms boxes, manuals, and receipts or other paperwork related to firearms transactions;
- u. United States currency or other items of value representing the proceeds of firearms trafficking and/or drug trafficking;
- v. Documents pertaining to the importation of firearms and/or ammunition and proceeds derived from the sale therefrom, including invoices, shipping labels, tracking numbers, boxes, and envelopes.

As used above, the terms “records” and “information” include all of the foregoing items of evidence in whatever form and by whatever means they may have been created or stored, including any form of computer or electronic storage (such as flash memory or other media that can store data) and any photographic form.

This warrant authorizes a review of electronic storage media and electronically stored information seized or copied pursuant to this warrant in order to locate evidence, fruits, and instrumentalities described in this warrant. The review of this electronic data may be conducted by any government personnel assisting in the investigation, who may include, in addition to law enforcement officers and agents, attorneys for the government, attorney support staff, and technical experts. Pursuant to this warrant, the FBI may deliver a complete copy of the seized or copied electronic data to the custody and control of attorneys for the government and their support staff for their independent review.

Case No. 1:21-mj-957

**AFFIDAVIT IN SUPPORT OF AN APPLICATION UNDER RULE 41 FOR A
WARRANT TO SEARCH AND SEIZE**

I, Anthony C. Ott, being duly sworn hereby and state as follows:

INTRODUCTION

1. I make this affidavit in support of an application under Rule 41 of the Federal Rules of Criminal Procedure for a search warrant authorizing the examination of property—two electronic devices—that are currently in law enforcement possession, and the extraction from that property of electronically stored information described in Attachment B.

2. I am a Special Agent with the Federal Bureau of Investigation (FBI) assigned to the Cincinnati, Ohio Field Office Division, and have been so employed since October 2000. As a Special Agent, I am authorized to investigate violations of laws of the United States and to execute warrants issued under the authority of the United States. The Attorney General of the United States has empowered me with Title 21 authority, which authorizes me to seize property, conduct search warrants, and make arrests of persons for violations of the Controlled

Substances Act.

3. I am currently assigned to investigate matters involving violent crimes, violent crimes against children, organized crime, criminal enterprises, and narcotics to include the unlawful possession, possession with intent to distribute, and actual distribution of controlled substances. I have participated in the preparation and execution of Federal arrest and search warrants related to numerous criminal offenses, including those involved in the current investigation, in my position as a Special Agent. I have also been involved with the analysis of pen registers, the monitoring of Title III wire intercepts, and the installation and monitoring of tracking devices for vehicles in relation to narcotics investigations. Further, I have been the affiant and obtained numerous Federal warrants for the cell phone data location of fugitives and subjects under investigation by the FBI.

4. In my experiences I have had the opportunity to monitor, listen, and review transcripts pertaining to communications which involved the trafficking of illegal narcotics by persons who attempted to thwart law enforcement by speaking in some sort of coded language. I have also participated in numerous post arrest and proffer interviews of individuals with knowledge of illegal drug trafficking that had been involved in using coded language and were familiar with day-to-day operations utilized by those involved in the illegal trafficking of narcotics. Through these interviews and other investigative experiences, I have gained knowledge regarding the various methods, techniques, codes, and/or jargon utilized by illegal drug traffickers in the course of conducting their criminal activities.

5. In addition, I have utilized confidential informants, pen registers, toll records, physical surveillances, and electronic surveillances in the process of my investigations to further my knowledge regarding the operations of those involved in illegal narcotics

distribution. I have further been the affiant on Federal search warrants, have testified in Grand Jury proceedings, and have written reports during the course of conducting investigations.

6. Through my training, experiences, and communications with other experienced agents and officers who conduct drug investigations, I have become familiar with methods used by drug traffickers to import, transport, store, collect, and safeguard illegal narcotics. Additionally, my training and experiences have given me knowledge regarding the methods used by drug traffickers to communicate with each other, to launder drug proceeds, and to thwart efforts by law enforcement to detect their illegal activities. I also have gained intelligence through my experiences, and through conversations with others who have conducted drug-related investigations, in regard to methods by which drug traffickers package, prepare, and distribute narcotics.

7. Facts set forth in this complaint are based on personal knowledge derived from my participation in this investigation and upon information presented to me by other law enforcement officers involved in this case to include fellow agents of the DEA, Ohio Bureau of Criminal Investigation, the Drug Abuse and Reduction Task Force (DART), Hamilton County Regional Enforcement Narcotics Unit (RENU), Cincinnati Police Department (CPD), Hamilton County Probation Office, Butler County Undercover Regional Narcotics Unit (BURN) and other law enforcement agencies. The sources of my information and beliefs include: (1) oral and written reports about this and other investigations which I have received from fellow law enforcement agencies; (2) physical and electronic surveillance conducted by Special Agents of the FBI and/or other law enforcement authorities which have been reported to me either directly or indirectly; (3) interviews of subjects, witnesses, victims, and confidential sources; (3) search warrants of residences, vehicles, and cell phones; and (3) law

enforcement controlled drug buys.

8. Since this affidavit is being submitted for the limited purpose of establishing probable cause authorizing search and seizure, I have not included each and every fact and circumstance I am aware of. I have set forth only those facts which I believe are necessary to establish such probable cause.

IDENTIFICATION OF THE DEVICES TO BE EXAMINED

9. The property to be searched, an Apple iPhone SE, model A2275, S/N F17F73D3PLJN646D and an Apple iPhone, black in color, no further visible identifiers, which are currently in secure evidence storage at the FBI Cincinnati Field Office, located at 2012 Ronald Reagan Drive, Cincinnati, Ohio 45236.

PROBABLE CAUSE

10. In or around 2018, FBI Cincinnati learned through multiple sources of information that Steffen ROBERSON a/k/a “Worm” was running one of the largest heroin/fentanyl drug trafficking organizations located in the greater Cincinnati, Ohio area (the ROBERSON DTO). Sources of information have advised that the ROBERSON DTO members work together coordinating the distribution of narcotics including heroin/fentanyl, cocaine, methamphetamine, and marijuana. The ROBERSON DTO is known to purchase narcotics from numerous sources of and distribute them throughout the ROBERSON DTO. Multiple sources have said that members of the ROBERSON DTO have been involved in successful murder-for-hire “hits,” some of which are active and ongoing. Over twenty state and federal search warrants have been executed since 2018 on ROBERSON DTO members’ drug trafficking residences where large quantities of fentanyl and loaded firearms have been routinely recovered. FBI Cincinnati consulted with several

federal and state law enforcement partners who also provided corroborating information about the ROBERSON DTO.

11. Through investigation, FBI agents identified Jerome NEWTON Jr. as a member of the ROBERSON DTO. In 2020, law enforcement, using confidential and reliable informants, made multiple controlled purchase of fentanyl from NEWTON and NEWTON's associate, Jimmy DANIEL. At the direction of law enforcement, the confidential informants contacted NEWTON by phone and during recorded phone conversation, NEWTON agreed to sell controlled substances to the confidential informants. During one of the controlled purchases in March 2020, a confidential informant overheard Jimmy DANIEL talking to NEWTON over FaceTime. During that conversation, DANIEL indicated to NEWTON that the confidential informant needed to purchase an amount of fentanyl.

12. On April 8, 2020, United States Magistrate Judge Candace Smith signed a search warrant for a residence tied to Jerome NEWTON, 2008 A Benton Road, Covington, Kentucky, 41011. On April 9, 2020, agents executed the search warrant at 2008 A Benton Road and NEWTON was present at the residence during the search warrant execution. Agents recovered two firearms, U.S. currency, and drug evidence from the search warrant. Agents executing the search warrant also seized the following electronic device from 2008 A Benton Road, Covington, Kentucky: iPhone, black in color, no further visible identifiers. This device was located on the bed next to NEWTON when the search warrant was executed. One additional cell phone was initially seized during the search warrant but that was later returned to its owner. Based on my training and experience, my participation in this investigation, and the fact that confidential informants called NEWTON on cellular devices to arrange for controlled buys, I believe

NEWTON was using the iPhone black in color, with no further visible identifiers in furtherance of his drug trafficking.

13. In 2021, law enforcement made controlled purchases of fentanyl from NEWTON and DANIEL and identified 3545 Jessup Road, Apartment 1B, Cincinnati, Ohio 45239 as NEWTON's stash location where he stores fentanyl. Agents also identified 6300 Witherby Ave, Cincinnati, Ohio as NEWTON's residence. In or around July 2021, FBI Cincinnati and the Hamilton County Sheriff's Office RENU developed a reliable Cooperating Defendant (hereafter CD-1) and two separate reliable confidential informants (hereafter CHS-1 and CHS-2) who have provided information on NEWTON and DANIEL's drug trafficking operations and conducted multiple law enforcement controlled purchases of fentanyl from NEWTON and DANIEL from July through November 2021.

14. CD-1¹ advised that Jerome NEWTON acquired a Mexico based source of drug supply that NEWTON's brother Kevin SUTTLES was managing before he was shot and killed in January 2021. CHS-1 stated that NEWTON has access to as many kilograms of cocaine and fentanyl from his source of supply that NEWTON is able to distribute. Steffen ROBERSON a/k/a "Worm" has a \$200,000 debt to NEWTON for kilograms of narcotics ROBERSON has received from NEWTON. CD-1 identified Jimmy DANIEL a/k/a "Nuetron" and Shawn BARTON as two of the main drug trafficking associates working under NEWTON.

15. CHS-1² advised that Jerome NEWTON and Jimmy DANIEL are working together

¹ CD-1 is currently charged with violations of 21 U.S.C. §§ 846 and 841(a)(1) and is cooperating with law enforcement in the hopes of receiving a lighter sentence. CD-1 has previously been convicted of drug trafficking in 2008 and 2013. To date, further investigation has corroborated information provided by CD-1 and has not shown any material information provided by CD-1 to be inaccurate. Therefore, I believe information provided by CD-1 is reliable.

² CHS-1 is cooperating with law enforcement for financial consideration. CHS-1 has previously been convicted of Carrying Concealed Weapons (2014). To date, further investigation has corroborated much of the information provided by CHS-1 and has not shown any material information provided by CHS-1 to be incorrect. Therefore, I consider information provided by CHS-1 to be reliable.

selling narcotics. NEWTON is acquiring multi-kilogram quantities of fentanyl and cocaine from a Mexico based drug supplier. Some of the drug loads NEWTON is receiving are up to 40 kilograms of fentanyl and cocaine in total quantity.

16. In October 2021, CHS-2³ provided that NEWTON was acquiring and distributing multi-kilogram quantities of fentanyl directly from a Mexican source of supply that goes by the alias “Altas.” CHS-2 identified NEWTON’s drug trafficking partner as DANIEL. CHS-2 provided investigators with a video where NEWTON shows off “\$300,000” in cash. CHS-2 also said that ROBERSON owes NEWTON a large amount of money for drugs ROBERSON acquired from NEWTON.

17. From September 1, 2021 through November 14, 2021, agents used CD-1 and CHS-1 to make law enforcement controlled purchases of fentanyl from NEWTON and DANIEL and Shawn BARTON. The specific dates, dollar amounts, and quantities of narcotics purchased are limited in this affidavit to help prevent members of the ROBERSON DTO from identifying the Confidential Sources and conducting acts of violence and intimidation.

18. During the time frame of September 1 through November 10, 2021, CD-1 and CHS-1 conducted approximately six law enforcement-controlled drug buys directly from NEWTON, DANIEL and Shawn BARTON. During all of the controlled buys, the confidential informants would be searched before and after the controlled buy for contraband and would be provided with an amount of pre-recorded U.S. currency in order to conduct the purchase of the narcotics.

³ CHS-2 is currently charged with the following offenses: Theft in violation of O.R.C. 2913.02(A)(1); Failure to Comply with an Order or Signal of a Police Officer in violation of O.R.C. 2911.12(A)(2); and Burglary in violation of O.R.C. 2911.12(A)(2). CHS-2 has previously been convicted of Possession of Drugs (2017) and Possession with Intent to Distribute (2018). To date, investigation has corroborated much of the information provided by CHS-2 and has not shown any material information provided by CHS-2 to be incorrect. Therefore, I believe the information provided by CHS-2 to be reliable.

19. During the timeframe of October 1 through October 14, 2021, agents used CHS-1 to make a controlled buy of fentanyl from NEWTON. Prior to the controlled buy, physical and electronic surveillance showed that NEWTON had stayed overnight at 6300 Witherby Avenue, Cincinnati, Ohio 45224. After CHS-1 called NEWTON to arrange for the controlled buy, surveillance showed that NEWTON traveled from 6300 Witherby Avenue to 3545 Jessup Road, Apartment 1B, Cincinnati, Ohio 45239. NEWTON was at 3545 Jessup Road for a short time before returning to 6300 Witherby Ave. Investigators believe NEWTON acquired the drugs sold to CHS-1 at 3545 Jessup Road. NEWTON returned to 6300 Witherby Avenue for a short time before leaving the location and traveling to meet CHS-1. At the pre-determined meeting location, NEWTON sold CHS-1 fentanyl in exchange for the pre-recorded U.S. Currency. The fentanyl NEWTON sold CHS-2 tested positive for fentanyl. After the transaction, surveillance units observed NEWTON travel directly to 6076 Yosemite Drive, Cincinnati, Ohio, 45237. Based on my training and experience, and my participation in this investigation, I believe that NEWTON traveled to 3545 Jessup Road to retrieve the fentanyl that he sold to CHS-1. As such, I believe NEWTON was using 3545 Jessup Road as a location to store fentanyl.

20. During the timeframe of October 15 through November 12, 2021, agents used CHS-1 to make a controlled buy of fentanyl from NEWTON. Physical and electronic surveillance showed that NEWTON traveled directly from 6300 Witherby Ave. to the pre-determined meeting location. At the meeting location, NEWTON sold CHS-1 an amount of fentanyl in exchange for pre-recorded U.S. Currency. The fentanyl NEWTON sold to CHS-1 tested positive for fentanyl.

21. On October 20, 2021, a court authorized GPS location of NEWTON's cellular telephone showed NEWTON travel from Cincinnati, Ohio to Detroit, Michigan by vehicle and then return to Cincinnati, Ohio on the following evening of October 21, 2021. Physical surveillance

units saw NEWTON and a Hispanic male, later identified as Juan MARCANO, arrive at 3545 Jessup Road, Apartment 1B, Cincinnati, Ohio 45239. NEWTON and MARCANO entered the building. GPS Location information showed that NEWTON traveled directly from Detroit to 3545 Jessup Road.

22. Later on October 21, 2021, surveillance units observed MARCANO at the Cancun restaurant located just off Jessup Road. MARCANO was having phone conversations with other individuals on his cellular telephone in both Spanish and English. After leaving the restaurant, agents saw MARCANO drive a vehicle that is registered to NEWTON's girlfriend Tyiesha HILL, from the Cancun Restaurant to 3545 Jessup Road, Cincinnati, Ohio.

23. On October 29, 2021, agents obtained a search warrant that authorized the installation of a GPS device on the Honda Accord, that is registered to Newton's girlfriend, that was driven by MARCANO on the evening of October 20, 2021. On three occasions, agents conducted physical surveillance on that Honda Accord in conjunction with the GPS tracking information. During those surveillances, agents observed who is now identified as MARCANO driving the Honda Accord and coming and going from 3545 Jessup Road, Cincinnati, Ohio. Review of the GPS tracker data from the Honda Accord revealed the vehicle was parked outside 3345 Jessup Road on most nights since late October 2021.

24. On November 15, 2021, United States the Honorable Magistrate Judge Stephanie K. Bowman signed arrest warrants for thirteen members of the ROBERSON DTO, that charged them with Conspiracy to Possess with Intent to Distribute and Distribute Controlled Substances. Jerome NEWTON, Jimmy DANIEL, Roderick SMITH, David HAMLER, Donald FAIRBANKS, and Devon PRICE among the 13 members who arrest warrants were issued for and those defendants were taken into custody on November 16, 2021.

25. Also on November 15, 2021, Judge Bowman signed a search warrants for residences associated with the ROBERSON DTO to include: 3545 Jessup Road, Apartment 1B, Cincinnati, Ohio, 45239, which is a residence tied to Jerome NEWTON; and 6300 Witherby Ave., Cincinnati, Ohio, which is the residence of Jerome NEWTON.

26. On November 16, 2021, agents executed the search warrant at 3545 Jessup Road, Apartment 1B, Cincinnati, Ohio. Juan MARCANO was found to be sleeping inside the apartment in a bedroom at the time the search warrant was executed. MARCANO was the only occupant inside the apartment. Agents conducting the search of the residence found a backpack that contained seven packages of suspected fentanyl inside a closet near the living room of the apartment. Personal paperwork belonging to NEWTON and NEWTON's deceased brother was found in an unoccupied bedroom. The seven packages of suspected fentanyl were compressed brick shaped. Law enforcement field tested the recovered packages and the substance tested positive for fentanyl.

27. On November 16, 2021, agents executed the search warrant at 6300 Witherby Avenue. NEWTON was present at the time the search warrant was executed and was arrested. Three firearms and suspected drug evidence was seized by agents during the search warrant. Agents executing the search warrant also seized the following electronic device from 6300 Witherby Avenue: Apple iPhone SE, model A2275, S/N F17F73D3PLJN646D. That cell phone is assigned number 513-828-1956. The device was found in a crawl space next to a bag of U.S. currency. Review of toll records show contacts between this device and the cell phone numbers of ROBERSON DTO members Jimmy DANIEL and David HAMLER, which leads agents to believe it was utilized by NEWTON. Based on my training and experience, my participation in this investigation, and the fact that confidential informants called NEWTON's on cellular devices to

arrange for controlled buys, I believe NEWTON was using the Apple iPhone SE, model A2275, S/N F17F73D3PLJN646D in furtherance of his drug trafficking.

28. I believe, for the reasons I described above, as well as for the additional reasons I give below, that the Devices will contain evidence related to the ROBERSON DTO's and NEWTON's drug trafficking and conspiracy to commit drug trafficking. Based on my training and experience, as well as my discussions with other law enforcement agents, I know the following about drug trafficking:

29. Drug dealers often maintain documents pertaining to the possession, importation, exportation, and/or distribution of controlled substances and illegal proceeds, including invoices, shipping labels, tracking numbers, boxes, and envelopes at their residences, stash houses, and/or in their vehicles where they are available for reference and concealed from law enforcement; and it is common to find photos or other records relating to these items on an electronic device used;

30. It is also common to find on drug dealers' smart phones photos or other records relating to the following common practices of drug dealers:

- a. Drug dealers keep books, receipts, notes, ledgers and other forms of records specifically relating to their drug distribution activities. Because drug dealers often "front" drugs to their customers – that is, sell the drugs on credit – or receive drugs from their suppliers on credit, such documentation is necessary to keep track of the amounts paid and owed with respect to their customers and suppliers. These ledgers are more commonly known as "pay/owe sheets" and may be as simple as notations on miscellaneous pieces of paper or may be recorded more formally in notebooks or even computer spreadsheets, and are frequently encoded in order to

protect those involved. Drug dealers often keep such records on their person or in their residences, stash houses, vehicles; and/or in their cellular devices.

- b. Drug dealers often use the United States Postal Service or commercial express mail delivery companies, such as FedEx or UPS, to ship drugs and money to various points within the United States. They do so, at least in part, due to the convenience of the service and the availability of related internet and phone tracking services, speed of delivery, and to reduce their risk of arrest during the transportation of drugs from one place to another. They often use hand-written airbills, drop the packages near closing time, pay for such services in cash and utilize false or nominee names, addresses, and/or telephone numbers when using such services in order to further insulate themselves from detection by law enforcement. Drug dealers frequently maintain records relating to their use of these services, such as receipts, on their cellular devices.
- c. Drug dealing is a business that involves numerous co-conspirators, from lower-level dealers to higher-level suppliers, as well as associates to process, package and deliver the drugs and persons to launder the drug proceeds. These persons frequently maintain listings of names, aliases, telephone numbers, pager numbers, facsimile numbers, physical addresses, and email addresses, sometimes encoded and sometimes not encoded, for the purpose of contacting their suppliers, customers, transporters, and others involved in their illicit drug distribution activities. These records are typically maintained on their person or in their residences, stash houses, and/or vehicles, so they are readily available in order to efficiently conduct their drug dealing business. Moreover, such records are often

stored electronically within the memory of telephones, computers, and/or personal digital assistants such as iPhone and Blackberry devices;

- d. Drug dealers often use cellular telephones, satellite telephones, pagers and text messaging devices, voicemail or answering machine systems, telephone calling cards, computers, email, and/or personal digital assistants such as iPhone and Blackberry devices in order to communicate with their suppliers, customers, transporters, and others involved in their illicit drug distribution activities. Drug dealers often keep these items on their person or in their residences, stash houses, businesses, and/or vehicles where they are readily available;
- e. Drug dealers often travel by car, bus, train, or airplane, both domestically and to and/or within foreign countries, in connection with their illegal activities in order to meet with co-conspirators, conduct drug transactions, or to transport drugs or drug proceeds. Documents relating to such travel, such as calendars, travel itineraries, maps, airline ticket and baggage stubs, frequent use club membership information and records associated with airlines, rental car companies, and/or hotels, airline, hotel and rental car receipts, credit card bills and receipts, photographs, videos, passports, and visas, are often maintained by drug dealers in their cellular devices;
- f. Drug dealers frequently take, or cause to be taken, photographs and/or videos of themselves, their criminal associates, their real and personal property, their weapons, and their drugs; and such items are often stored on their person, in their residences, and/or vehicles; these photographs and/or videos are often taken and stored on their electronic devices.

31. The Devices are currently in secure evidence storage at FBI Cincinnati, 2012 Ronald Reagan Drive, Cincinnati, Ohio 45236. In my training and experience, I know that the Devices have been stored in a manner in which their contents are, to the extent material to this investigation, in substantially the same state as they were when the Devices first came into the possession of the FBI.

TECHNICAL TERMS

32. Based on my training and experience, I use the following technical terms to convey the following meanings:

- a. Wireless telephone: A wireless telephone (or mobile telephone, or cellular telephone) is a handheld wireless device used for voice and data communication through radio signals. These telephones send signals through networks of transmitter/receivers, enabling communication with other wireless telephones or traditional “land line” telephones. A wireless telephone usually contains a “call log,” which records the telephone number, date, and time of calls made to and from the phone. In addition to enabling voice communications, wireless telephones offer a broad range of capabilities. These capabilities include: storing names and phone numbers in electronic “address books;” sending, receiving, and storing text messages and e-mail; taking, sending, receiving, and storing still photographs and moving video; storing and playing back audio files; storing dates, appointments, and other information on personal calendars; and accessing and downloading information from the Internet. Wireless telephones may also include global positioning system (“GPS”) technology for determining the location of the device.

- b. Digital camera: A digital camera is a camera that records pictures as digital picture files, rather than by using photographic film. Digital cameras use a variety of fixed and removable storage media to store their recorded images. Images can usually be retrieved by connecting the camera to a computer or by connecting the removable storage medium to a separate reader. Removable storage media include various types of flash memory cards or miniature hard drives. Most digital cameras also include a screen for viewing the stored images. This storage media can contain any digital data, including data unrelated to photographs or videos.
- c. Portable media player: A portable media player (or “MP3 Player” or iPod) is a handheld digital storage device designed primarily to store and play audio, video, or photographic files. However, a portable media player can also store other digital data. Some portable media players can use removable storage media. Removable storage media include various types of flash memory cards or miniature hard drives. This removable storage media can also store any digital data. Depending on the model, a portable media player may have the ability to store very large amounts of electronic data and may offer additional features such as a calendar, contact list, clock, or games.
- d. GPS: A GPS navigation device uses the Global Positioning System to display its current location. It often contains records the locations where it has been. Some GPS navigation devices can give a user driving or walking directions to another location. These devices can contain records of the addresses or locations involved in such navigation. The Global Positioning System

(generally abbreviated “GPS”) consists of 24 NAVSTAR satellites orbiting the Earth. Each satellite contains an extremely accurate clock. Each satellite repeatedly transmits by radio a mathematical representation of the current time, combined with a special sequence of numbers. These signals are sent by radio, using specifications that are publicly available. A GPS antenna on Earth can receive those signals. When a GPS antenna receives signals from at least four satellites, a computer connected to that antenna can mathematically calculate the antenna’s latitude, longitude, and sometimes altitude with a high level of precision.

- e. PDA: A personal digital assistant, or PDA, is a handheld electronic device used for storing data (such as names, addresses, appointments or notes) and utilizing computer programs. Some PDAs also function as wireless communication devices and are used to access the Internet and send and receive e-mail. PDAs usually include a memory card or other removable storage media for storing data and a keyboard and/or touch screen for entering data. Removable storage media include various types of flash memory cards or miniature hard drives. This removable storage media can store any digital data. Most PDAs run computer software, giving them many of the same capabilities as personal computers. For example, PDA users can work with word-processing documents, spreadsheets, and presentations. PDAs may also include global positioning system (“GPS”) technology for determining the location of the device.

33. Based on my training, experience, and research, and from consulting the manufacturer's advertisements and product technical specifications available online at www.apple.com, I know that the Devices have capabilities that allow them to serve as a wireless telephone, digital camera, portable media player, GPS navigation device, and PDA. In my training and experience, examining data stored on devices of this type can uncover, among other things, evidence that reveals or suggests who possessed or used the device.

ELECTRONIC STORAGE AND FORENSIC ANALYSIS

34. Based on my knowledge, training, and experience, I know that electronic devices can store information for long periods of time. Similarly, things that have been viewed via the Internet are typically stored for some period of time on the device. This information can sometimes be recovered with forensics tools.

35. *Forensic evidence.* As further described in Attachment B, this application seeks permission to locate not only electronically stored information that might serve as direct evidence of the crimes described on the warrant, but also forensic evidence that establishes how the Device was used, the purpose of its use, who used it, and when. There is probable cause to believe that this forensic electronic evidence might be on the Device because:

- f. Data on the storage medium can provide evidence of a file that was once on the storage medium but has since been deleted or edited, or of a deleted portion of a file (such as a paragraph that has been deleted from a word processing file).
- g. Forensic evidence on a device can also indicate who has used or controlled the device. This "user attribution" evidence is analogous to the search for "indicia of occupancy" while executing a search warrant at a residence.

- h. A person with appropriate familiarity with how an electronic device works may, after examining this forensic evidence in its proper context, be able to draw conclusions about how electronic devices were used, the purpose of their use, who used them, and when.
- i. The process of identifying the exact electronically stored information on a storage medium that is necessary to draw an accurate conclusion is a dynamic process. Electronic evidence is not always data that can be merely reviewed by a review team and passed along to investigators. Whether data stored on a computer is evidence may depend on other information stored on the computer and the application of knowledge about how a computer behaves. Therefore, contextual information necessary to understand other evidence also falls within the scope of the warrant.
- j. Further, in finding evidence of how a device was used, the purpose of its use, who used it, and when, sometimes it is necessary to establish that a particular thing is not present on a storage medium.

36. *Nature of examination.* Based on the foregoing, and consistent with Rule 41(e)(2)(B), the warrant I am applying for would permit the examination of the device consistent with the warrant. The examination may require authorities to employ techniques, including but not limited to computer-assisted scans of the entire medium, that might expose many parts of the device to human inspection in order to determine whether it is evidence described by the warrant.

37. *Manner of execution.* Because this warrant seeks only permission to examine a device already in law enforcement's possession, the execution of this warrant does not involve the

physical intrusion onto a premises. Consequently, I submit there is reasonable cause for the Court to authorize execution of the warrant at any time in the day or night.

CONCLUSION

38. I submit that this affidavit supports probable cause for a search warrant authorizing the examination of the Devices described in Attachment A to seek the items described in Attachment B.

REQUEST FOR SEALING

39. It is respectfully requested that this Court issue an order sealing, until further order of the Court, all papers submitted in support of this application, including the application and search warrant. I believe that sealing this document is necessary because the warrant is relevant to an ongoing investigation and not all of the targets of this investigation will be searched at this time. Based upon my training and experience, I have learned that, online criminals actively search for criminal affidavits and search warrants via the internet, and disseminate them to other online criminals as they deem appropriate, i.e., post them publicly online through the carding forums. Premature disclosure of the contents of this affidavit and related documents may have a significant and negative impact on the continuing investigation and may severely jeopardize its effectiveness.

Respectfully submitted,

Anthony C. Ott

United States Magistrate Judge

ATTACHMENT A

Property to be Searched

The property to be searched is listed below. The devices are currently located in a secure evidence storage at FBI Cincinnati, 2012 Ronald Reagan Drive, Cincinnati, Ohio, 45236.

- a. an Apple iPhone SE, model A2275, S/N F17F73D3PLJN646D; and
- b. an Apple iPhone, black in color, no further visible identifiers.

ATTACHMENT B

1. All records and information on the Devices described in Attachment A that relate to violations of 21 U.S.C. §§ 841 and 846 (possession with intent to distribute a controlled substance and conspiracy to commit a Title 21 offense); by Jerome NEWTON members of the ROBERSON DTO and others yet unknown occurring in or after 2018 through the present, including but not limited to communications, photographs, videos, cell phone applications, records, and other data about the following:

- a. Any and all controlled substances (as defined under Title 21, United States Code, § 812) possessed by Jerome NEWTON, members of the ROBERSON DTO, and others yet unknown;
- b. lists of customers and related identifying information;
- c. types, amounts, and prices of drugs trafficked as well as dates, places, and amounts of specific transactions;
- d. any information related to sources of drugs (including names, addresses, phone numbers, or any other identifying information);
- e. all bank records, checks, credit card bills, account information, and other financial records;
- f. Evidence of user attribution showing who used or owned the Devices at the time the things described in this warrant were created, edited, or deleted, such as logs, phonebooks, saved usernames and passwords, documents, and browsing history;
- g. Paraphernalia associated with the manufacture, distribution, sale, import, export, storage, conversion, preparation for sale and use of any controlled

substances, including scales, measuring devices, bottles, balloons, baggies, plastic wrap, plastic envelopes, film canisters and cutting, conversion, and adulteration agents;

h. Records showing evidence of importing, smuggling, and distributing drugs, including books, ledgers and diaries, address books and lists, buyer and seller lists, notebooks, IOU's, spreadsheets, rolodexes, telephone bills, telephone answering pads, bank and financial records, wire transfer records, express consignment mailing labels (including Federal Express, DHL, U.S. Postal Express Mail, UPS, and other similar labels), evidence of offsite storage (such as storage locker receipts and safety deposit box rental records and keys), documents showing domestic or international travel (such as airline tickets, itineraries, passports, and the like), and receipts showing imports or exports (such as shipper's export declarations, bills of lading, invoices, tax identification number paperwork, and other similar documents);

i. Currency (whether U.S. or foreign) and financial instruments, including travelers checks, bonds, stock certificates, cashier's checks, certificates of deposit, and money orders, derived from the sale of controlled substances in violation of Title 21, United States Code, § 841 and money wrappers, rubber bands, money containers, and money counting machines;

j. Precious metals, jewelry, art, or other high-value items that could be obtained with the proceeds of the sales of controlled substances;

- k. Any and all records, documents and deeds reflecting the purchase or lease of real estate, vehicles, precious metals, jewelry, art, or other high-value items that could be obtained with the proceeds of the sales of controlled substances;
- l. Any boxes, bags, briefcases, suitcases, containers, or other items that could be used to mail, carry, import, export, smuggle, or transport marijuana or any other controlled substances;
- m. Photographs (both paper and digital form) and video and audio recordings which document an association with other co-conspirators and/or display drug trafficking methods, narcotics, firearms, or money and proceeds from narcotics transactions;
- n. All records, documents, and materials showing control, possession, custody, dominion or other indicia of occupancy over physical premises, including but not limited to: personal mail, checkbooks, personal identification, personal effects, notes, other correspondence, utility and other bills, internet service provider documents, letters, rent receipts, mortgage and loan documents, financial documents, vehicle registration information or ownership warranties and keys;
- o. Any and all electronic or communication devices including, but not limited to, cellular telephones, smart phones, portable electronic devices such as tablet computers, laptops, iPads or electronic storage media, and other electronic or communication devices which could be used to facilitate drug trafficking;
- p. Firearms and ammunition;

- q. Firearms accessories, such as ammunition, ammunition magazines, silencers, gun cases, magazines and spare parts;
- r. Firearms source records, including lists of prices, correspondence, notation logs, receipts, journals, books, telephone records, telephone bills, address books, bank statements, and other documents or devices noting the price, quantity, dates, and/or times when firearms were purchased possessed, transferred, distributed or sold;
- s. Photographs, video and audio recordings, text messages, chats, emails and other communications (and associated contact information), in electronic or other form, related to the possession, acquisition or transfer of firearms, firearms parts and accessories, or ammunition;
- t. Firearms boxes, manuals, and receipts or other paperwork related to firearms transactions;
- u. United States currency or other items of value representing the proceeds of firearms trafficking and/or drug trafficking;
- v. Documents pertaining to the importation of firearms and/or ammunition and proceeds derived from the sale therefrom, including invoices, shipping labels, tracking numbers, boxes, and envelopes.

As used above, the terms “records” and “information” include all of the foregoing items of evidence in whatever form and by whatever means they may have been created or stored, including any form of computer or electronic storage (such as flash memory or other media that can store data) and any photographic form.

This warrant authorizes a review of electronic storage media and electronically stored information seized or copied pursuant to this warrant in order to locate evidence, fruits, and instrumentalities described in this warrant. The review of this electronic data may be conducted by any government personnel assisting in the investigation, who may include, in addition to law enforcement officers and agents, attorneys for the government, attorney support staff, and technical experts. Pursuant to this warrant, the FBI may deliver a complete copy of the seized or copied electronic data to the custody and control of attorneys for the government and their support staff for their independent review.
